Academic Projects

BeAM Makerspace Systems Analysis Semester Project – Chapel Hill, NC <ul style="list-style-type: none">Served as the Scrum Master to a team of six people. Managed sprints, created GANTT and burndown charts, organized meetings.Practiced contextual design principles such as contextual inquiries, interpretation sessions, affinity diagrams, flow models, and more to aid our client at UNC's BeAM Makerspaces in resolving limitations pertaining to their reservation system.	
Product Management Semester Project – Chapel Hill, NC <ul style="list-style-type: none">Collaborated with a team of two other members to design a hypothetical app titled Aloe that is meant to help troubled teens find regional communities.Co-authored a 26-page product proposal in a week that consisted of a summary, user personas, a work plan calculated using the PERT formula, feasibility analyses (schedule, operational, technical, economic), functional and non-functional requirements, and a user questionnaire. Presented on proposal to the class.Co-authored a final write-up detailing user journey through the app via an interactive prototype. Presented on interactive prototype to the class.	
Application Design Projects – Chapel Hill, NC <ul style="list-style-type: none">Redesigned the ConnectCarolina Student Center interface to be a more GUI-based interface. Authored a succinct write-up detailing problematic navigation, poor usability, and lack of aesthetic design. Used Balsamiq to create 9 wireframes ranging from desktop homepage to mobile view to academic planning to error boxes.Created wireframes of an application designed for high school alumna to stay connected and plan events.	
Web Design Projects – Chapel Hill, NC <ul style="list-style-type: none">Designed a personal resume multi-page website in Feb 2022 using the professor's template. Added email obfuscation, JavaScript last-updated time stamp, ordered & unordered lists, and links.Coded a website's homepage from scratch using HTML and CSS in May 2022. Design follows a cyberpunk aesthetic.Designed a personal multi-page creative portfolio using a creative commons HTML5 skeleton template.Created a Visual Novel using the RenPy engine for a final exam in December 2022. Complete with sprites and original music compositions.
