Technical Experience

Product Management Semester Project – Chapel Hill, NC

Information Systems Analysis and Design course taken at UNC Chapel Hill

- Collaborated with a team of two other members to design a hypothetical app titled Aloe that is meant to help troubled teens find regional communities.
- Co-authored a 26-page product proposal in a week that consisted of a summary, user personas, a work plan calculated using the PERT formula, feasibility analyses (schedule, operational, technical, economic), functional and non-functional requirements, and a user questionnaire. Presented on proposal to the class.
- Co-authored a final write-up detailing user journey through the app via a series of wireframes. Presented on user journey to the class.

Application Design Project – Chapel Hill, NC

Information Systems Analysis and Design course taken at UNC Chapel Hill

- Redesigned the ConnectCarolina Student Center interface to be a more GUI-based interface. Authored a succinct write-up detailing problematic navigation, poor usability, and lack of aesthetic design. Used Balsamiq to create 9 wireframes ranging from desktop homepage to mobile view to academic planning to error boxes.

Web Design Projects – Chapel Hill, NC

Information Literacy & New Media courses at UNC Chapel Hill

- Designed a personal resume multi-page website in Feb 2022 using the professor's template. Added email obfuscation, JavaScript last-updated time stamp, ordered & unordered lists, and links.
- Coded a website's homepage from scratch using HTML and CSS in May 2022. Design follows a cyberpunk aesthetic.
- Designed a personal multi-page creative portfolio using a creative commons HTML5 skeleton template.

Digital Interactive Stories – Chapel Hill, NC
